Texas Cancer Information on the Web*

Connect at www.texascancer.info

Texas Cancer Information can connect patients, care-givers, the general public, health care policy planners, physicians and other health professionals with reliable online cancer information.

Find the information you want – get the resources you need

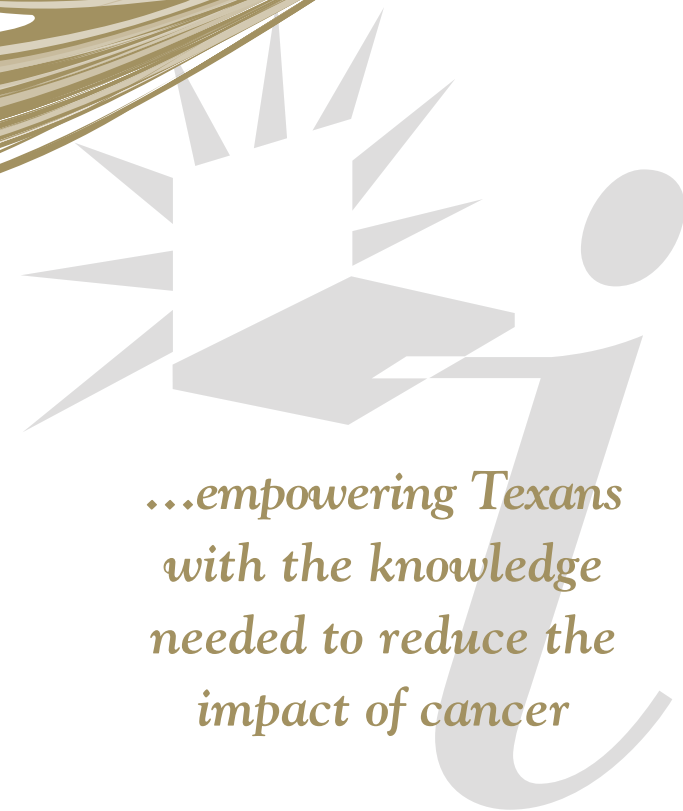

We gather, organize and deliver the latest information to empower Texans with the knowledge needed to reduce the impact of cancer.

What you'll find on the Texas Cancer Information Web site is cancer and health information for Texans—and all information is free to users.

**The Texas Cancer Data Center (TCDC), your source for Texas cancer information since 1986, is now Texas Cancer Information—on the Web at www.texascancer.info.*

Texas Cancer Information provides information about:

- Physicians and other health care providers
- Cancer risk factors, screening, early detection, treatment and continuing care
- Health care facilities and services, including hospitals, cancer centers, mammography facilities, colorectal cancer screening services, home health agencies and hospice care
- Access to cancer care for low-income and uninsured patients
- Survivorship resources
- Support resources
- Community cancer resources and coalitions
- Cancer statistics and regional profiles
- Links by cancer topic and type
- Inventory of cancer prevention and control programs
- Comprehensive cancer control resources and coalitions
