

2015 Summit on HPV-Related Diseases

MD Anderson
Cancer Center

Protecting Our Children

Next Steps:

18 Jun 2015

This is Great...

But What do we Do NOW?

Women over 26 Years?

No ham in Vaccinating...

Personal Choice!

Diseases are Beyond Cervical Cancer

- Perile
- Anal
- RRP

Some are More Common than Others!

Do you Still Vaccinate Even if Young HPV Exposure?

OP Effectiveness?

Yes!

Let's Get Our Vaccination Rates UP!

Needs More Time...

Leap of Faith!

Communication is KEY!

We are Underperforming. How do we Make it Better?

Rx You Need These 3!

Okay, Next Time!

School Nurse is Key! PTA's too!

Resources

Doctors are Key Partners for School Districts!

Rx You Need the 3!

Take Advantage of the Opportunities as they Present!

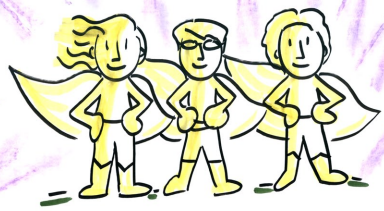

Let's do it Now!

Be the Champion

Talk the Language, Align the Curriculum

Texas is a Quilt

Go Forth and be the CHAMPION!
